

CIRCULAR

Unauthorized Parking of Vehicles

1. A large number of two wheelers are seen parking outside the college compound. The road in front of the college is a Panchayath road with no parking space on sides. Considering this our college left 1.5 m free, while constructing compound wall on this side. This space is under the control of college and students can use it. The area is earmarked by boundary stones.
2. If the vehicles are parked beyond this boundary, it is illegal and liable to be charge sheeted. Moreover, if any accident occurs from passing vehicles we cannot claim compensation since vehicles are parked outside parking area. Because of the sharp edge of the black surfaced road, when giving side to the vehicles from opposite direction, chances of vehicles tilting towards left and hitting vehicles parked closely are higher for which drivers cannot be blamed.
3. In view of above all students are hereby instructed to park their vehicles inside the campus or limit parking within the boundary line of college compound, otherwise the college will not be held responsible for any damage.
