ECE News & Events

November 2014

From ED's Desk . . .

It gives immense pleasure to flag-off the first edition of the newsletter "Encircle" of the department of Electronics and Communication Engineering, highlighting the activities of the period 2013-2014. It is endeavor of the department to articulate the newsletter with various informations to acquaint its readers with the achievements of the ECE fraternity. The laudable exercise of the students and staff of this department has already brought laurels in various corners of this institution.

I applaud the staff and students for this achievement and wish that everyone continue their untiring efforts not only to retain this achievement but to grow to further high standards. Also, congratulate head of the department for taking initiative in releasing the first newsletter.

Er. G. Mohamachandram

From Principal's Desk . . .

Of the three 'R's, Reading, WRiting and ARithmetic, though each is important on the road of literacy, writing enjoys a special position. Writing is often necessary to clear the air. Writing makes ideas permanent; it is for posterity. It is often used for self-corroboration, to bring clarity. Writing helps decision making. It is a reminder, a medium via which positive ideas can be conveyed. It can be used to take others into confidence and to give confidence. The reader on seeing things in writing, is more influenced, develops better understanding of the writer and more importantly in the college context attains more confidence in the information conveyed.

Hence, it is with great pleasure that the institution greets the newsletter released by the department of Electronics and Communication. I extend all support and hope that the efforts will be continued in the coming days as well. Using electronics for communication becomes literally true via this endeavour. Congratulations!!

Dr. Sudha Balagopal

From HoD's Desk . . .

It gives very content that as a forerunner the department of Electronics & Communication Engineering is releasing its first issue of "Encircle" newsletter. The major strength of the department is the amalgamation of our qualified and dedicated faculty who understand the rhythm of the students for their academic excellence. Our under graduate and post graduate program students are equally showing their enthusiasm towards extracurricular and co-curricular activities contemplate them towards placement and higher education.

The contribution congregate on planned actions executed during the year 2013-14 by committed faculty, lab technicians and students are really appreciable. Further, it gives satisfaction to bring out the update information about the department newsletter blended with technical and non-technical segment that is rich in contents. With this bright vigor and enthusiasm, let's us look forward for further progress of our department academic objectives set for the year 2014-15. On this occasion we invite the alumni of ECE to come forward with new conceptual ideas towards department growth. Finally, deptpartment would like to convey sincere thanks to the management for their continuous support and admiration.
