REACT 2020

Recently, innovations in Civil Engineering have progressed at an accelerate pace. REACT 2020, the 7th national conference intends for researchers of various specialization in Civil Engineering to present their innovations and contributions to Civil Engineering & Technology. This conference aims to bring together a group of well experienced hands in the field of Civil Engineering. This conference will be held with online sessions on themes mentioned and we hope that the young researchers will get an opportunity to explore the various challenges in the field of Civil Engineering.

CONFERENCE THEMES

- ➔ Structural Engineering
- ➔ Geotechnical Engineering
- ➔ Transportation Engineering
- ➔ Environmental Engineering
- ➔ Water Resources Engineering
- ➔ Building Technology & Construction Management

ABOUT THE INSTITUTION

Vidya Academy of Science & Technology (VAST) is a state-of-the-art engineering college conforming to international standards. This model engineering college is approved by AICTE and affiliated to APJ Abdul Kalam Technological University. In few years, VAST has evolved and achieved recognition as a notable School of Engineering with its competent and committed faculty, high quality infrastructure and high technology teaching aids, and by providing a serene atmosphere that complements academic life. VAST has a holistic approach to education where academic training goes hand in hand with offerings that develop the body, mind and soul to prepare its graduates to be future leaders.

ABOUT THE DEPARTMENT

The Civil Engineering department was established in the year 2006. The department offers B.Tech. (NBA Accredited) programme for 120 students and M.Tech. programme in Structural Engineering for 24 students. Also there is a provision for lateral entry to the third semester for diploma holders. VAST is trying to mould the students as world class engineers .

VISION

Progress through quality education by keeping pace with new challenges in the field of Civil Engineering

MISSION

To create competent Civil Engineering professionals, applying their technical and managerial skills thereby finding real time solutions to regional and global problems and accept new challenges in various Civil Engineering projects
