APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY

Conversion of GPA to percentage

KTU follows grading system for awarding grades and grade points to students as followed in most of the Universities. It follows 10 point grade scale. SGPA and CGPA are calculated as the weighted average of grade point multiplied by the credits for the courses.

A general formula for conversion of SGPA/CGPA into percentage of marks cannot be defined. However, several students request for percentage of marks, as in many cases they have to provide % of marks. The Academic committee has approved an approximate formula for conversion of SGPA/CGPA to % marks as follows.

$$\text{The Percentage Marks(\% Marks)} = 10 \times G - 3.75$$

Where *G* is SGPA or CGPA
