#### ACTION TAKEN REPORT ON FEEDBACK ANALYSIS

#### (ACADEMIC YEAR 2020-2021)

The institution actively seeks feedback from all stakeholders, (students, parents, employers, alumni). Upon gathering this feedback, it undergoes categorization and department-specific analysis. Subsequently, the analyzed feedback is compiled and presented to the institution head. As per the analysis report, the principal proceeds to undertake suitable actions to resolve identified issues and concerns.

The following actions were recommended on the feedback given by the students, parents, alumni and employers:-

- 1. During the pandemic, concerns were raised about conducting laboratory sessions. The college addressed this by effectively utilizing virtual labs and recorded sessions of practicals ensuring students continued to gain practical experience and skills remotely. Thus Continued academic progress and practical learning without significant disruption.
- 2. During the COVID-19 period, parents expressed concerns about the placement of students. In response, the placement cell organized online pre-placement talks to equip students with the necessary skills and knowledge for interviews and the recruitment process. Additionally, the placement cell successfully conducted online placement drives, ensuring students had opportunities to secure jobs despite the limitations imposed by the pandemic.
- 3. To improve both academic and non-academic performance during the pandemic, students were encouraged to attend webinars and enroll in MOOCs (Massive Open Online Courses). This initiative reflected a large number of students actively participating in these online learning opportunities
